

Acacia Gold

ABOUT OUR

Acacia Gold, headquartered in California, USA, is the largest gold production, development, and exploration company in the United States. Renowned in the industry, we are committed to building the world's most valuable gold and copper company by leveraging premier assets, guided by exceptional management, and delivering optimal returns and benefits to all stakeholders. As a leader in the global gold mining sector, Acacia Gold is dedicated to excellence and sustainable practices.

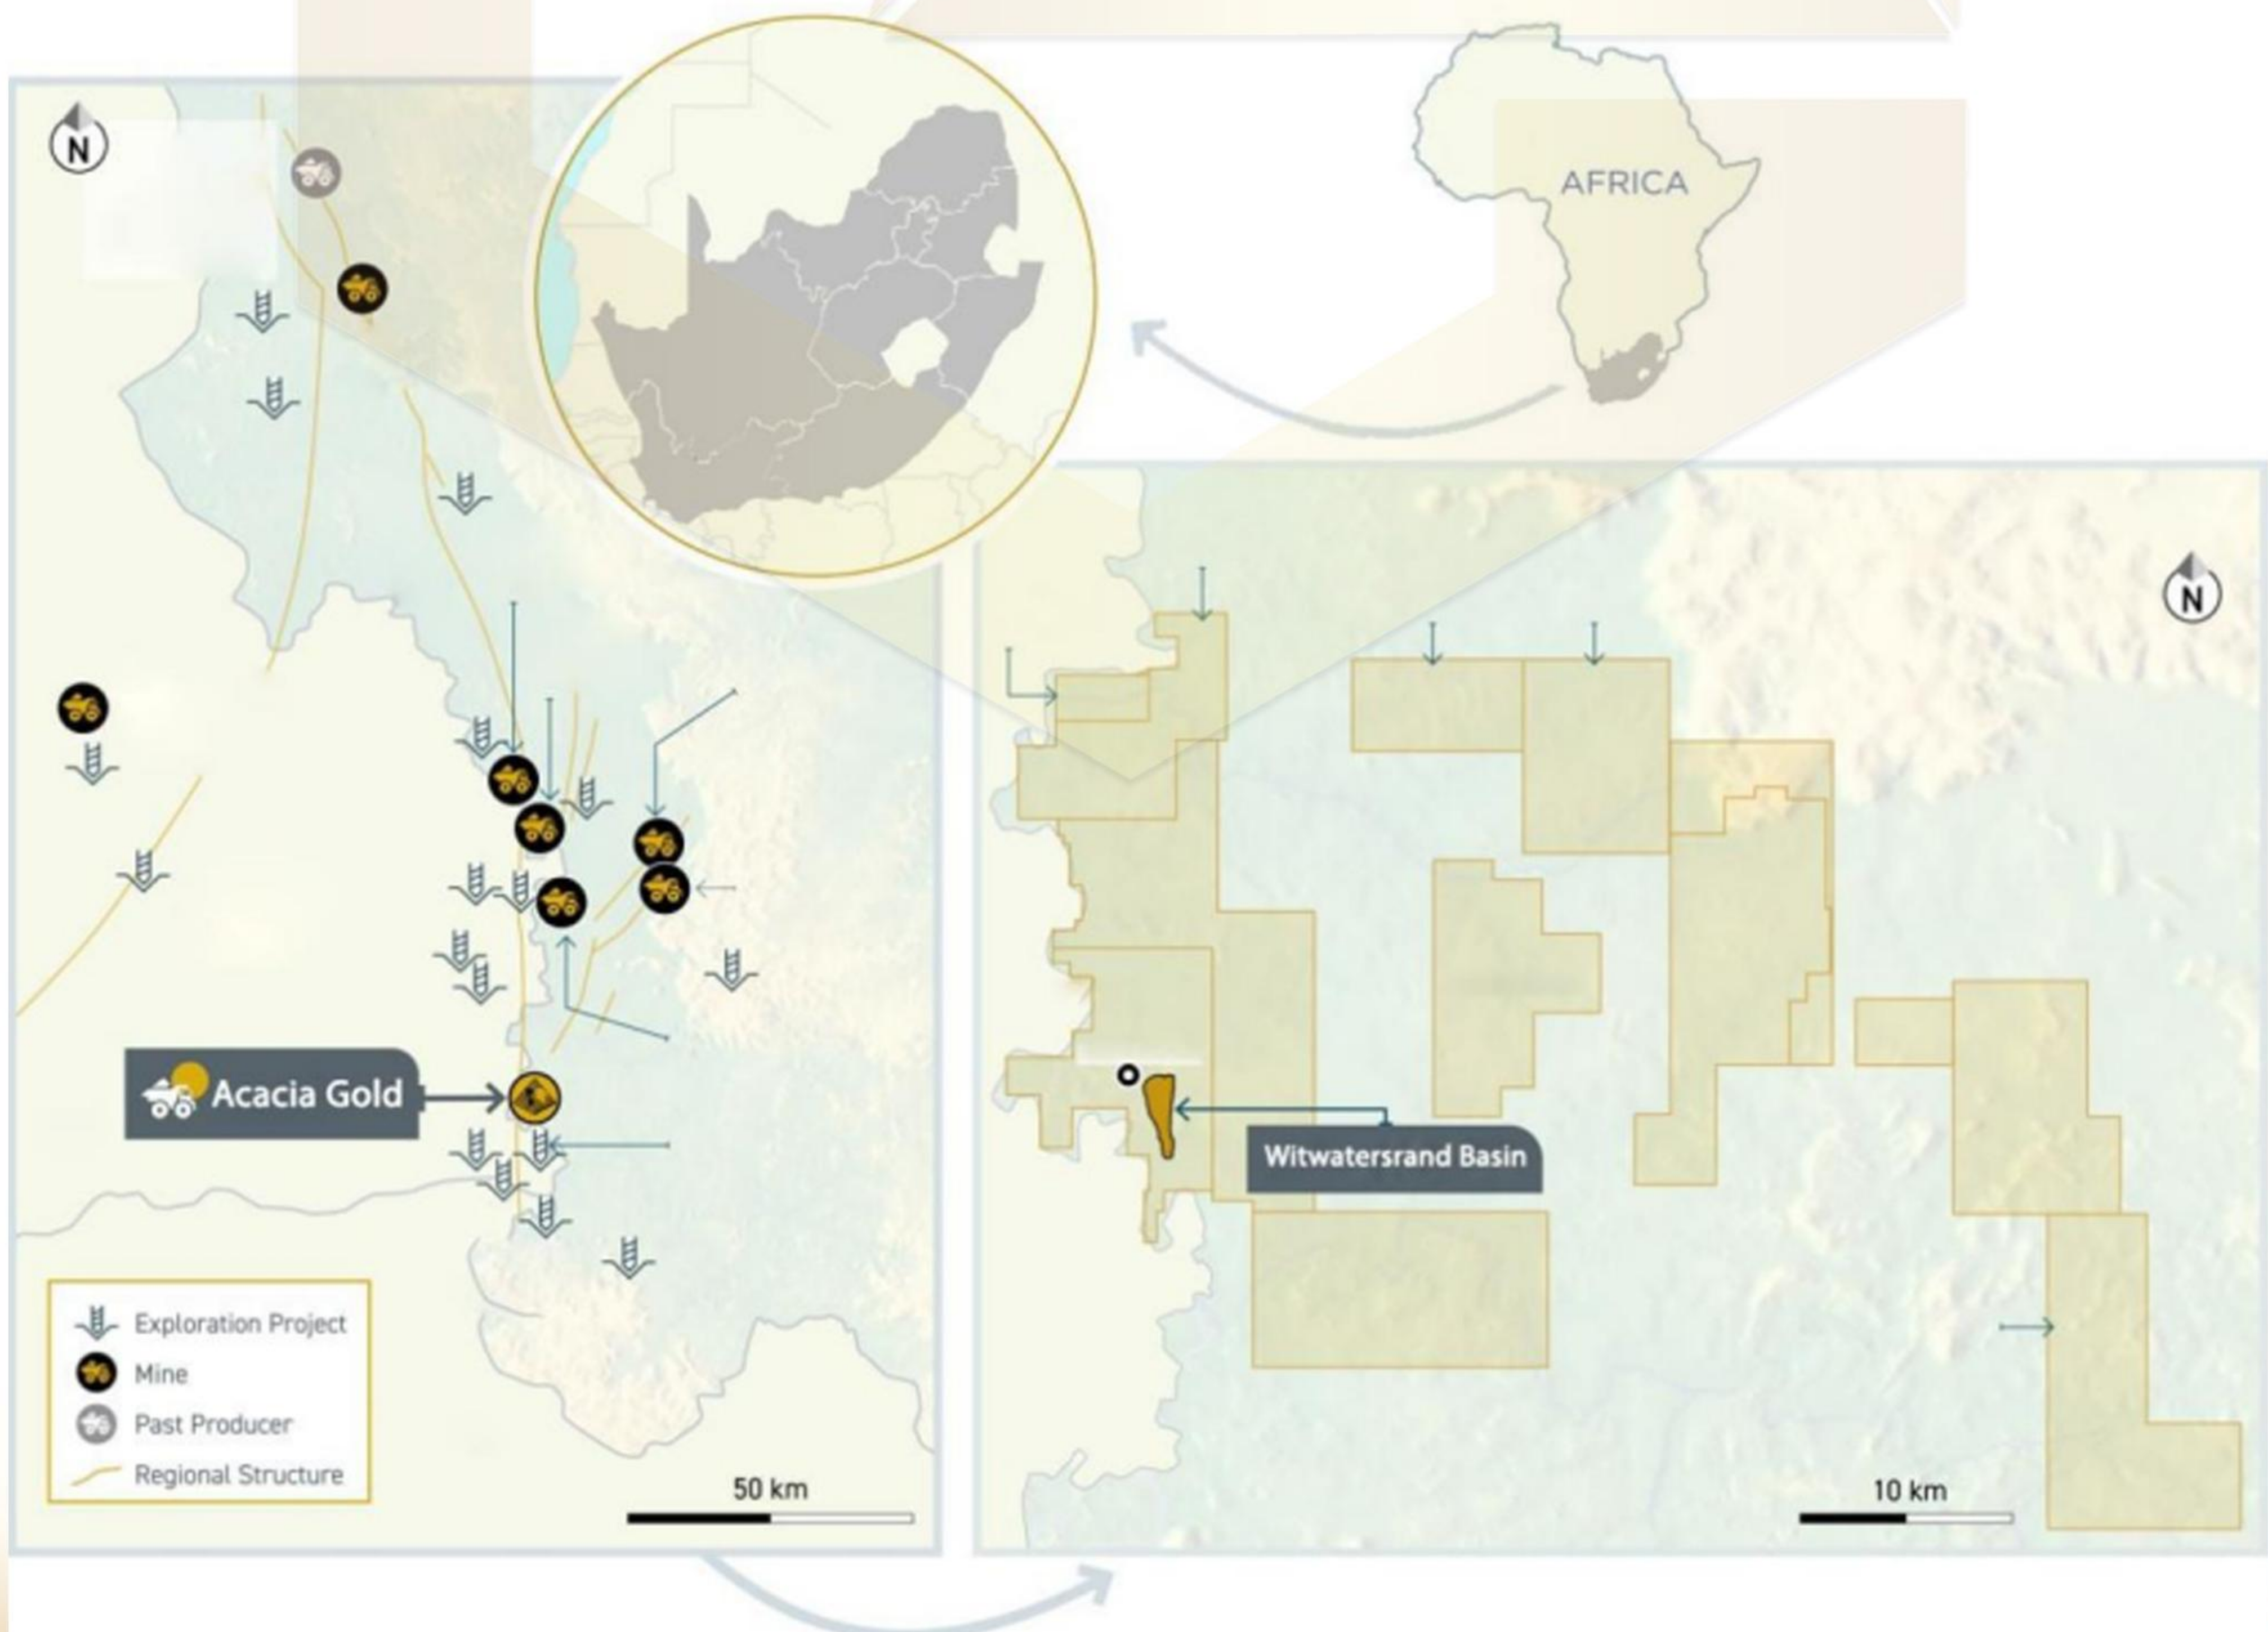

Our project is the Retail Gold Miner Program.

We all recognize the value and applications of gold. Beyond its role as a strategic reserve, gold is widely utilized in new technology sectors, including medical devices, electronics, computers, robotics, aerospace, and military applications. The Retail Gold Miner Program allows multiple members to collectively lease a large mining rig, facilitating Acacia Gold's efforts to accelerate gold extraction through the leasing company's mining projects. While the equipment you lease may generate income for only a few months, its lifespan extends beyond that, potentially providing the company with continuous revenue for up to 10 years. This longevity enables the company to offer you a higher income potential.

In 2023, Acacia Gold announced the discovery of a new high-grade gold system, confirming gold reserves exceeding 8 million ounces and silver reserves surpassing 200 million ounces, situated in the renowned Witwatersrand Basin. The company has implemented a robust exploration drilling program, leveraging advanced technology and data analysis methods to thoroughly assess the resource potential of the area.

Acacia Gold excels in creating diversified revenue streams. In addition to traditional gold mining, the company actively explores other value-added businesses. A prime example is the **"Retail Gold Miner"** program established in partnership with the South African government, aimed at providing stable employment opportunities for the South African populace and helping more individuals achieve reliable income.

Why choose to join Acacia Gold?

- ➔ **Generate reliable income by leasing our gold mining machines. Earn consistent profits, as each machine operates within our mines. At the end of the lease term, you will recover your rental fees.**
- ➔ **We have a transparent wealth growth system that ensures every member has the opportunity to fairly increase their income. Our company encourages all members to actively engage in their work to enhance their earnings.**
- ➔ **All our mines have business plans spanning over 10 years, with some extending up to 20 or 25 years. These plans are firmly based on verifiable geological insights, engineering considerations, and commercial viability.**
- ➔ **As the largest gold mining company in the United States, Acacia Gold holds a significant position in the global gold industry. The company's success is attributed not only to its abundant resources and advanced technology but also to its unique business model and strategic vision.**

You join the company as a miner. Mining equipment for leasing companies. Activate the mining rig. You and the company will receive income.

The work is very simple and can be done at home with a mobile phone.

The Retail Gold Miner project operates under the dual oversight of the U.S. and South African governments. The company pays all members their salaries in USDT. We have a long-term partnership with Binance, allowing all members to easily exchange USDT for ZAR through the Binance app and withdraw it to their bank accounts.

So everyone's funds are 100% safe!

This allows you to easily explain to your friends how secure their investment is in this project.

By renting a mining machine within the mining system, you can earn 0.01% of the revenue generated by that machine.

As the company's gold extraction output continues to rise, we remain committed to principles of equality, integrity, and positivity, dedicating ourselves to helping more members in need of stable employment.

To facilitate more individuals in joining our company, we have adopted a marketing business model that offers generous team income to active members who promote our projects.

Each time you assist a friend in joining your team, you will earn substantial team income.

Every member of our company has the potential to earn between R100,000 and R500,000 or more through dedicated effort.

You will get back the security deposit for all mining machines at the end of the rental period! This means you can rent with peace of mind, knowing your deposit is safe.

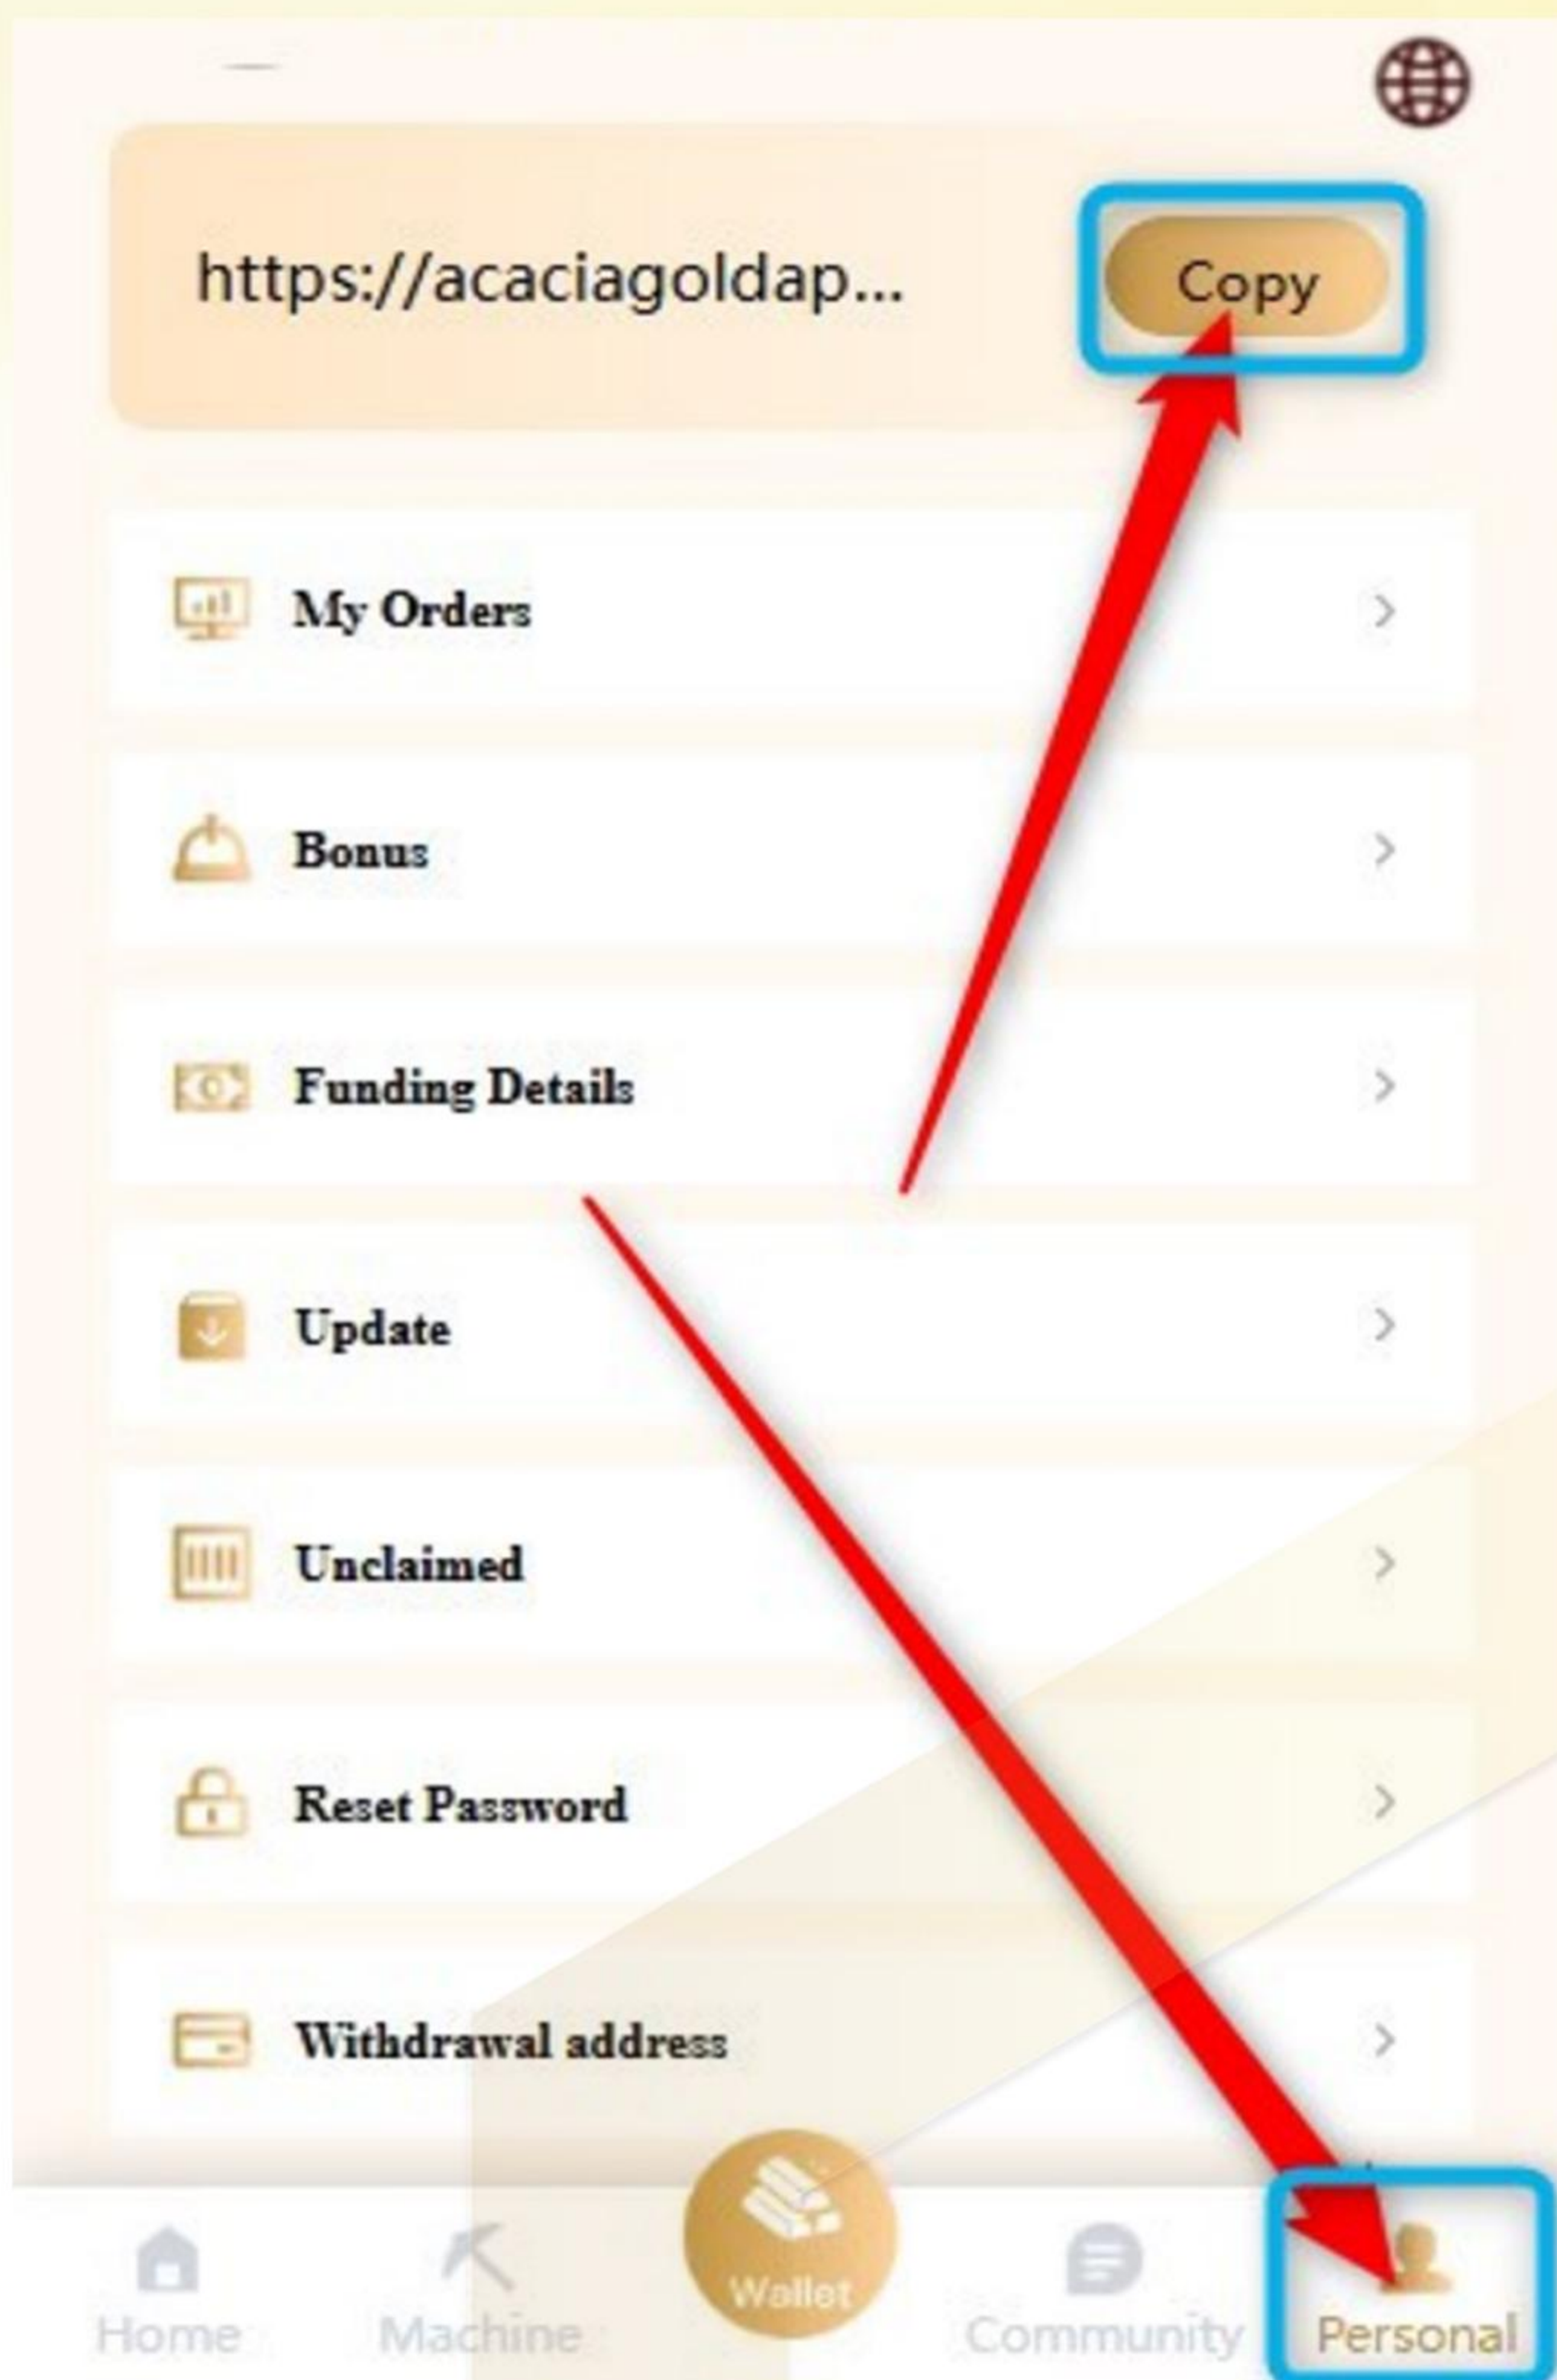

When you rent equipment from the company, your rental fee is less than 0.1% of the daily operating cost.

For example, each A08 mining machine you rent can give you returns for **120 days**, but it can operate for up to **10 years**. This means you benefit from income over a much longer time! You can earn a daily return of **30 USDT (R600)** from the equipment, and the company takes on the operational risks. Your earnings from the equipment are fixed and guaranteed!

This means that renting any gold mining machine through the AG APP is completely risk-free! You can enjoy the benefits without worrying about operational risks.

Note: Acacia Gold has a team of geologists and economists who decide when to hold or sell gold based on market conditions and sales strategies. However, this does not impact your stable income.

Your earnings are a small fraction—less than 0.01%—of the total revenue generated by the mining machines. This means you can count on a reliable and consistent income stream!

Team Income

When your friends register using your referral link, they help boost your team income.

Your team income depends on the value of the equipment they rent.

Understanding Team Income

To grasp team income, it's important to know your team structure:

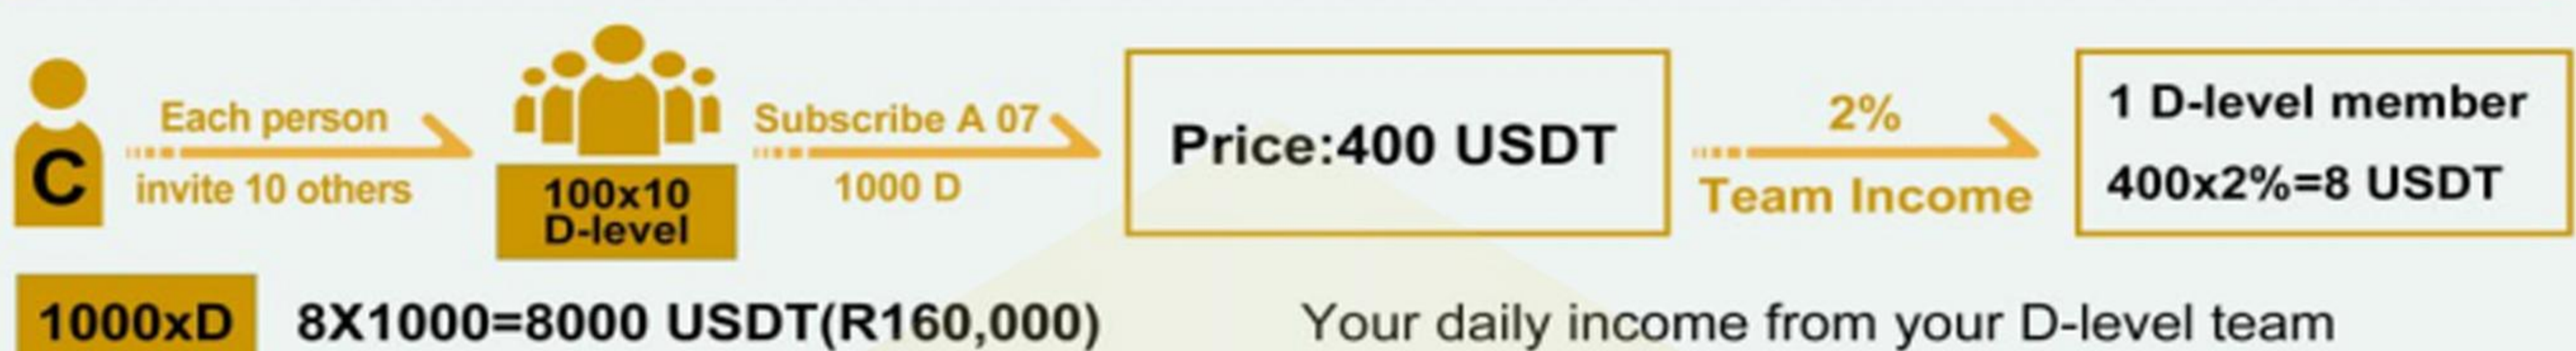

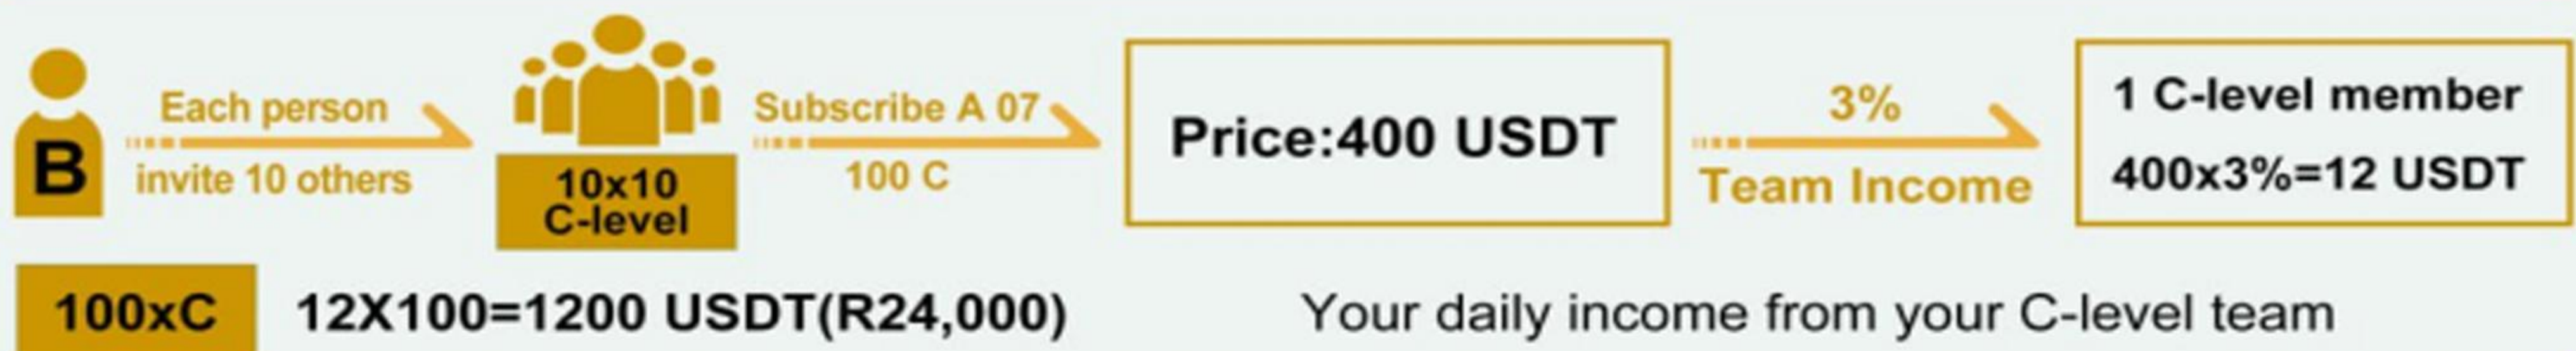

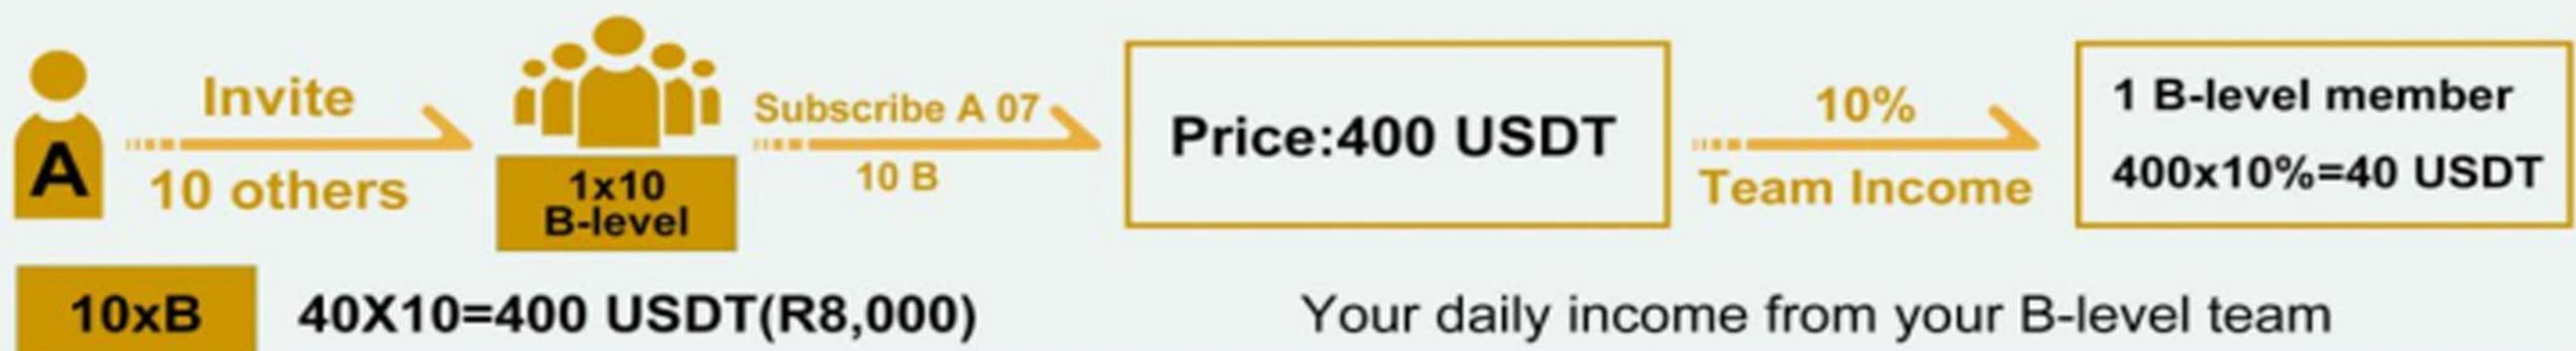

- **B-level Members:** These are the members who join using your referral link.
- **C-level Members:** These members join through your B-level members' referral links.
- **D-level Members:** These members join through your C-level members' referral links.

Your Team Composition: B + C + D

- **B-level Members:** Earn 10% from the rental price of mining machines.
- **C-level Members:** Earn 3% from the rental price of mining machines.
- **D-level Members:** Earn 2% from the rental price of mining machines.

Your Team Income: B (10%) + C (3%) + D (2%)

The more members you have in your team, the more you can earn!

You Get Team Income: B + C + D = 400 + 1,200 + 8,000 = 9,600 USDT (R192,000)

By simply inviting 10 people, you can easily earn over **R192,000** per month!

If you help a friend (B) join A07, you'll immediately earn a team income of 10%.
 $400 \text{ USDT} \times 10\% = 40 \text{ USDT (R800)}$

If your B member helps one friend (C) join A07, you'll immediately earn a team income of 3%.
 $400 \text{ USDT} \times 3\% = 12 \text{ USDT (R240)}$

If your C member helps one friend (D) join A07, you'll immediately earn a team income of 2%.
 $400 \text{ USDT} \times 2\% = 8 \text{ USDT (R160)}$

If you invite 10 friends, you will have 10 B-level members.
 These 10 B-level members can generate a team income of: $40 \times 10 = 400$ USDT (R8,000).

Your 10 B-level members will work just as actively as you, each inviting 10 friends to join the company.

This means you'll have $10 \times 10 = 100$ C-level members.
 These 100 C-level members can generate a team income of: $12 \times 100 = 1,200$ USDT (R24,000).

Over time, your 100 C-level members will also invite 10 friends each.
 This means you'll have $100 \times 10 = 1,000$ D-level members.
 These 1,000 D-level members can provide you with a team income of: $8 \times 1,000 = 8,000$ USDT (R160,000).

Your team income of: B+C+D.

Your total team income of: $400 \text{ USDT} + 1,200 \text{ USDT} + 8,000 \text{ USDT} = \mathbf{9,600 \text{ USDT (R192,000)}}$.
